Eclipse Hoof Treatment

- An Antibacterial & Antifungal Antiseptic Rinse for use below the Coronary Band.
- Effective contact killer for the treatment of Thrush, Canker, White Line Disease and Cracked Heels.
- May be used on sole or frog and as a flush for opened abscesses.

Directions:

Clean area and saturate with rinse. If possible saturate cotton and pack any openings to keep dirt out and hold rinse in contact with affected area. Change packing and re-apply once per day.
